01 — SUMMARY

You exist, but you don't dominate

Score computed on generic discovery prompts — the ones where nobody names your brand. That's where the choice is made by people searching without knowing you.

CITATION RATE PER ENGINE

CHATGPT		40%
PERPLEXITY		20%
GEMINI		20%
CLAUDE		20%

You're cited in 5/20 queries (25%). Per engine: ChatGPT 40% • Perplexity 20% • Gemini 20% • Claude 20%.

Methodology • 5 generic discovery prompts + 1 brand prompt, across 4 AI engines (20 generic queries), against 2 competitors. The brand prompt is listed separately: when your name is in the query the AI cites you mechanically — that is not a visibility signal.
